

## Moving predictive modeling for Valley Fever forward through a hub approach

March 30th, 1 - 4 PM Mountain Standard Time

### In person (directions below):

Rooms HSIB 531 & 532 (Fifth floor)  
Health Science Innovation Building  
1670 E Drachman St, Tucson, AZ 85721)

Virtually on Zoom (full call in details below): <https://arizona.zoom.us/j/86974272918>

**Description:** This meeting will bring together modelers, subject matter experts, and public health partners to discuss predictive models of Valley Fever and a modeling hub approach to collaboration, particularly in the context of predicting endemicity, spatiotemporal risk in humans, and the impacts of climate change. We will have an intro talk from coordinators of ongoing modeling hubs for West Nile Virus and other pathogens, as well as panel sessions on understanding surveillance and epidemiological data for Valley Fever, environmental detection and data sources for cocci, and defining model targets for prediction.

**There are a limited number of in person spots, so if you have not yet RSVP'd for in-person attendance, please email Mal Rajeev ([ruv0@cdc.gov](mailto:ruv0@cdc.gov)) to indicate your interest.**

**Virtual attendance is open to all interested, so please feel free to forward this invitation to any that may be interested!**

**Directions to in-person location ([see the CSG flyer for parking instructions](#)):**

1. Enter Health Science Innovation Building (1670 E Drachman St, Tucson, AZ 85721)
2. Turn right upon entry to get to elevators, then go to the fifth floor.
3. Exit elevator and follow signage to get to the meeting rooms (HSIB 531 & 532).
